# SIGNATURE TALKS

## PEOPLE MATTER

Based on a case study of the international production company that boldly dived in and is swimming through the troubled waters of culture shift in their organization, this inspirational talk will encourage those who are considering the same.

What happens when the line managers and workers say YES to the leader`s vision?

## ON THE WINGS OF WORDS

Our words change the way we experience reality. Do they even have the power to alter the reality?

What we think and say has an impact on how we act. In today's global working environment with cross-cultural teams words matter more than ever.

Are you speaking the language that is serving you and your team or the language that gets in your way to success?

## LEAD SIMPLY

This though-provoking speech will challenge some of the widely accepted teachings and assumptions about leadership.

What if it is REALLY simple? What if it takes only few things to be an authentic, inspirational, wise leader?

But the question is: Do you have the courage to lead simply?

*"Alexandra has a very courageous, powerful message about going beyond the boundaries as leaders. Her use of stories kept me wanting more. To leaders who are willing to trust and be courageous you must hear her message."*

**Danielle Reed**

*"Professional, powerful and a quiet confidence. Alexandra made me believe anything is possible!"*

**Jeunesse Pearson**
